FOR THOSE WHO HAVE BEEN FOLLOWING THIS MANGA, THANK YOU !

Thanks for sticking with this so-not-that-good scans quality of my first scanlation group ever, guys. I learned that scanlating a manga is such a pain in the ass. Cleaning and typesetting are such cumbersome tasks. Not to mention finding raws and translating and yada yada. Thank God a few people actually offered such big helps. Wow, it was EXTREMELY time-consuming, LOL. Anyway, I learned a lot and I hope to be some of use to it. I actually joined some other scanlation group. And don't forget to buy the official manga if you see it in your country okay?! OKAY!?

btw peeps I'm actually somewhere on tumblr so go talk to me if you find me. the hint is im totally into mewine guys. lol

Anyway! Kurumichi scans will no longer be active after releasing this last chapter. However, if Fukushima-sensei starts a new series, make sure to inform me somehow, 'cuz I might wanna scanlate more of her series :P
